

the top 5 Reasons to join!

5 By having your HVAC system regularly serviced, you are keeping your equipment at peak efficiency & doing your part in saving the environment.

It's Earth Friendly

4 It's Peace of Mind

You can rest happy knowing your family won't be sizzling in July and shivering in January because you've taken steps to avoid your HVAC breaking down at the worst possible time.

You make sure your car is serviced every 5,000 miles. Your HVAC systems runs the equivalent of 30,000 miles a year. Like your car, it needs oil changes and checkups to extend it's lifespan and keep it purring along.

3

It's Smart

2 Planning filter changes and maintenance is far less expensive than having large repair bills. You'll also save money on utilities by keeping your equipment running properly.

It's Inexpensive

1 Nothing could be easier than having us take care of your heating and cooling. We'll take care of your comfort, change your filter, protect your investment and most importantly: safeguard your family.

It's Easy

The best heating & cooling system
is the one you don't have to think about.

Terms and Conditions

We agree to perform maintenance as outlined on this form for the program and equipment specified. For our programs that include Extended Service Warranty, we agree to provide labor for replacement or repair of parts as specified below at no cost during regular-working hours for the duration of the program agreement. Regular working hours are Monday-Friday 8 am to 4 pm.

Qualifying Equipment: Equipment to be included in our Extended Service Warranty programs must have an inspection to make sure they are in working order and meet our maximum age requirement for the desired plan. A customer can still choose to purchase one of our Extended Service Warranty programs even if one of the pieces of equipment does not. Under these circumstances, the disqualified piece of equipment will not include parts and labor coverage of any kind. Needed repairs will receive a 10% discount.

Conditions: We will endeavor to render prompt and efficient service, but it is expressly agreed that we will in no event be liable for damage or loss caused by delay or any loss arising out of the performance of this agreement. We will not reimburse the costs of utilities. We reserve the right to reject any agreement, if an inspection by us shows the equipment to be in such condition that service will be unsatisfactory to either party. We reserve the right not to renew this agreement for any reason. If the customer allows the agreement to expire, no extended warranty service will be rendered until 10 days after the renewal has been accepted. Two attempts to schedule a maintenance visit fulfill our obligation. If a maintenance visit is scheduled and the customer is not home, our obligation is fulfilled.

Exclusions: It is mutually agreed that this agreement covers only factory installed equipment components and does not cover the labor for duct work, vent pipe, heat exchangers, electrical work, plumbing work, any work required due to negligence, misuse of equipment, damage caused by fire, flood, acts of God, shortage of electrical or water supply, sabotage, or damage caused by freezing, insects, or animals. No service will be rendered under this agreement, if the customer has a past-due account. The compressor, evaporator and condenser coils, and reversing valves are not covered under this agreement; when under the manufacturer's warranty a reduced price for replacement will apply. The costs of refrigerant, freight, and filter-driers are not covered by this agreement. Air filters (except where included), water pumps, zone controls, electronic-air-cleaners, any accessories not integral to the gas burner or controls, and the labor to replace any of the above are not included in this agreement. Flue pipes or chimneys, water supply and drains, refrigerant piping; electrical supply to the equipment; parts and labor; geothermal underground piping house penetrations, flow centers; pumps, valves, or fittings are not covered by this agreement.
